ROYE CERTAIN OF CAPTURE

ALLIED FORCES SLOWLY CLOSING IN ON GERMAN KEY POSITION.

(By the Associated Press)

Roye, the central position of the German defense line from Peronne to Noyon which has withstood allied thrusts for nearly a week, is menaced seriously by the advancing French British and Canadian troops and its fall appears as a probability of next few hours. Along a front of nearly nine miles north and south of the Ancre the allies have pushed the enemy back in stubborn fighting. French and Canadian troops advanced on a three mile front in one center. French troops on the south forced their way through Loges Wood, bordering the Roye-Lassigny road on the west. Artillery activity continues on the remaining sectors of the main battle front between the Ancre and Oise. British on the northern end of the front maintain their newly gained position.

Italian troops in Tonale region northwest of Lake Garda and along the southern stretch of the Po river have withstood Austrian attacks against their new positions there. Otherwise the situation is unchanged in Northern Italy.

FRENCH MAKE MORE PROGRESS

GRADUALLY PUSHING LINES FORWARD AND REPULSING GERMAN ATTACKS.

(By the Associated Press)

Paris, Aug. 17.—In the Roye region French troops progressed further in Loges wood and have reached the outskirts of the wood on the east, says today's official statement. There was heavy artillery fighting west of Roye last night. Northwest of Ribecourt the French repulsed two strong German attacks. A German raid north west of Rheims failed.

British Lines Advanced.
London, Aug. 17.—British troops in Picardy have pushed their lines eastward north of the Amiens-Roye road and north of the River Ancre, according to Field Marshal Haig's official statement today. The British also gained further ground in Vieux-Berquin neighborhood at the Les salient apex.

Army Casualty List.
Washington, Aug. 17.—Today's army casualty list shows:
Killed in action 17
Died of wounds 1
Died of accident and other causes 2
Wounded severely 31
Wounded, degree undetermined 20
Missing in action 19

WILHELM AND CHARLES IN FULL AGREEMENT

Amsterdam, Aug. 17.—The complete agreement existing between Germany and Austria-Hungary has been again demonstrated at the meeting of the Emperors at German main headquarters, an official statement from Berlin today declares, which is dated at German headquarters Aug. 15, and reads as follows:

"The meeting of the august sovereigns once again has manifested the close understanding and complete agreement on political and military tasks and an identical and most loyal interpretation of the alliance. The intercourse of the monarchs was characterized by a cordiality commensurate with their personal relations as well as the interests of the people.

"Leading statesmen and military leaders have conferred with complete and fruitful results. The Kaiser gave audience to Baron Burian, Field Marshal Arz and other Austrian Ministers, while Emperor Charles received Baron Burian and Field Marshal von Hindenburg."

Dispatches yesterday reported Emperor William and Emperor Charles holding an important conference at German main headquarters on political and military questions with numbers of their advisers.

Baron Burian is the Austro-Hungarian Foreign Minister and Field Marshal Arz von Straussenburg is the Austrian chief of staff. Admiral von Hintze, the German Foreign Secretary, was mentioned in yesterday's dispatches as being present at the conference and it may be through an error in the text of the dispatches that Baron Burian and not Admiral von Hintze is mentioned as having been received by Emperor Charles.

LIBERAL MOVEMENT AMONG JAPANESE

Tokio, Aug. 17.—(Correspondence of the Associated Press)—Dr. Inazo Nitobe, who is well known in the United States through his lectures in that country, warns Japanese bureaucratic statesmen that there is a new movement of democracy among the Japanese people and that a high-handed policy will precipitate an outburst of dangerous thoughts. In an article in a Japanese publication which has attracted considerable attention he says the bureaucratic statesmen are treading the path to ruin which was followed by the Tokugawa Shogunate statesmen before the revolution of 1868. The bureaucrats he asserts regard socialism as a dangerous thought, but they do not realize that there is a beneficial monarchical socialism when "the King is the faithful servant of the people." In this sense, Dr. Nitobe thinks, Japan is the foremost champion of socialism in the world.

"Bureaucratic statesmen," he writes denounce socialism as dangerous thoughts introduced from Europe and America, but most Europeans and Americans visiting this country are surprised at the prevalence of socialism here to an extent such as can be seen nowhere else.

Everything appears calm now, he continued, but it was well to notice that democratic sentiments are rapidly disseminating throughout the various strata of society.

Dr. Nitobe concluded: "Bureaucratic statesmen in Japan are too blind to, and too ignorant of, the new thoughts which are sure to spring from among the people who have awakened either with the advanced times or through their impulses of life. In consequence, they are calling forth still more dangerous thoughts. They think nothing but repression and expiration in dealing with the new thoughts. They may be dreaming of sitting on their usual safety-valve forever but they will be able to hold the political safety-valve only so long as the populace whose innermost hearts are seething with new sentiments, remains silent."

HUNS SELECT POLISH KING

AGREED THAT AUSTRIAN SHALL OCCUPY THRONE OF CONQUERED NATION.

(By the Associated Press)
The Hague, August 17.—Germany has approved the Austrian suggestion that an Austrian archduke be made king of Poland, the Lokal Anzeiger of Berlin says it understands. The newspaper adds that Duke Karl Stephen will probably be named.

What Austria Wants.
London, Aug. 17.—According to a dispatch from the Daily Mail to the Hague, Germany has demanded that Austria send ten to fifteen divisions to the western front. Austria assented to this, the dispatch says, on condition that Germany would accept Austria's solution of the Polish question and make a strong peace move, including the evacuation and restoration of Belgium. Germany promised to concede to Austria's solution of the Polish question, including the naming of an Austrian Archduke as King, the dispatch asserts.

ALFRED SMITH

Alfred Smith, president of the New York Central system, has been appointed assistant director of railroads in charge of transportation in the eastern and northern districts. He is an able executive of long experience.

SPAIN WILL EVEN SCORE WITH GERMANY.

London, August 17.—Spain, has notified Germany of her intention to compensate herself for future outrages against Spanish shipping by confiscating a correspondent amount of tonnage from German shipping that has found refuge in Spanish ports, says a dispatch to the Times from Santander. There are about ninety German steamers voluntarily interned in Spain.

SENATOR GALLINGER OF NEW HAMPSHIRE DEAD

(By the Associated Press)
Franklin, N. H., Aug. 17.—United States Senator Jacob H. Gallinger of New Hampshire a conspicuous figure in the senate since 1891 and the oldest senator both in years and point of service, died at a hospital here early today after being ill since July. Senator Gallinger was eighty-one years old.

BRITISH RECOGNITION OF SLAVS ARROUSES GERMANS.
Amsterdam, August 17.—German newspapers comment bitterly upon the manifesto issued by Great Britain in recognition of the Czech-Slovak Nation.

"It is the acme of hypocrisy when England gives these notorious traitors a testimonial that they are waging legitimate warfare," the Cologne Gazette says.

"This recognition will remain only a recognition on paper if the central powers, as they have so far, remain victorious against the world attack," says the Frankfurt Gazette.

"Nevertheless England's step, which is doubtless backed by the remainder of the entente, must certainly affect detrimentally the meager prospects of peace, because promises have been made of a Slav nation, which promises could only materialize after the collapse of Austria.

Judge George C. Crump of Holdenville was in the city Tuesday morning for a brief stay. The Judge is particularly elated over the splendid majority given him in his district for judge of the district court. His majority, according to his figures, is 800 votes.—Wewoka Democrat.

TEACHERS TO BE RETIRED

(By the Associated Press)
Oklahoma City, Ok., April 18.—The State Board of Education at the meeting today adopted a resolution which in effect retires from service members of the age of 70 years. This, however, will not become effective until Sept. 1, 1920. There are one or two members of school faculties who are now of that age, it is said. The board voted an increase in salaries of heads of schools and some members of faculties.

SUCCESSFUL MEETING IN EGYPT DISTRICT

M. R. Chilcutt and Orel Busby attended a meeting of the district Council of Defense at Egypt last night. Both of these gentlemen addressed the gathering, after which a most successful box supper was staged on a unique plan. The boxes were prepared by the ladies of that community and auctioned at the meeting. One-half of the proceeds of each box was returned to the lady who prepared it, in the form of a gift; the other half was also converted into stamps and handed back to the purchaser of the box, thus making it necessary for each party, in order to protect his holdings, to go ahead and buy enough stamps to fill out his card. In this way \$117 was invested in the government, which will be greatly increased as each party fills his card. Also two cakes were sold for \$10 which was turned over to the Red Cross.

OLD QUARREL RESULTS IN KILLING AT DUNCAN.

Duncan, Okla., April 18.—M. M. Bowman, a single man, 36 years old, was shot and instantly killed on the sidewalk in the residence part of the city Tuesday night at about 11 o'clock. M. W. Payne, jeweler of this city, surrendered to the officers and turned over a pump shot gun, with which the shooting was done. Five shots were fired, and twenty-seven buckshot penetrated Bowman's body, arms, hands and lower limbs. Just a year ago on the same date, 2 hours earlier in the evening, Payne shot Bowman with a pistol seriously wounding him. The injured man recovered in an Oklahoma City hospital after which he returned and again took up his former abode next door to where Payne lives. There were no eye witnesses to the shooting, but when officers arrived Bowman was lying face downward just off the sidewalk in front of Payne's home, with a high power automatic pistol under his body and in his hand. The killing is said to be the result of family trouble of long standing, which was the cause also, of the former shooting. Payne waived preliminary hearing, and agreed bond of \$2,500 was made and he was released.

BRITISH HOLDING STEADY AFTER SMALL RETIREMENT

MIDDLETON HERE THIS EVENING

AMERICA'S LEADING BASSO-BARITONE SINGS AT NORMAL TONIGHT.

Mr. Arthur Middleton, basso-baritone, will sing at the normal auditorium this evening at 8:30 o'clock. As an artist Mr. Middleton ranks the equal of any singer in the world today. He has been long associated with the Metropolitan Opera Company of New York, and is at the head of the class composed of Caruso and others of that type. He sings with a voice as sweetly modulated as the tones produced by the troubadour upon his guitar, or with the command of a master artist with the trombone. As an American citizen of prominence, he ranks with Bryan, Taft and Roosevelt. He is a true American in sympathy, in love, in cordiality. Mr. Middleton is really a "made-in-America" American. Hear him.

U-BOAT TOLL DURING WEEK FIFTEEN SHIPS

London, April 18.—The losses to British shipping by submarine or mine in the past week totaled fifteen, according to the admiralty report tonight. Eleven of the merchantmen sunk were 1,600 tons or over and four under that tonnage. One fishing vessel also was sunk.

WAGON MINES CANNOT RAISE

FUEL ADMINISTRATION RULES
MINES NOT ENTITLED TO
EXTRA FOR HAULING.

Operators of wagon coal mines in Oklahoma will not be allowed to add to the government price the cost of hauling the coal from the mine to the railroad when the coal is loaded into open top cars, according to information given out here today by State Fuel Administrator, P. A. Norris. The only exception to this is where the railroad buys the coal for its own use.

This decision of the United States Fuel Administration affirms the ruling promulgated by it on October 6, 1917. At that time it was decided that operators of wagon mines could charge 75 cents a ton above the government price, provided the coal was loaded into box cars. If it was loaded into open top cars, the extra charge could not be added. The object of the order was to get the wagon mine operators to using box cars in order that the open top cars might be released for other mines.

Representatives of the wagon mine operators sought this spring to induce the Fuel Administration to make a similar allowance for loading into open top cars. They based their request upon the claim that congestion of the railroads has been relieved sufficiently to justify the use of open top cars by wagon mines, and that the cost of hauling was the same whether the coal was loaded into box cars, or open top cars. Investigation of the situation, however, has satisfied officials of the Fuel Administration that the demand for open top cars, by mines that can load only into that kind of cars, still exceeds the supply. Under the circumstances, therefore, it was decided that production would be stimulated best by restricting the allowance for hauling, to those wagon mines loading into box cars.

This ruling affects many mines in the Oklahoma coal field.

UNDERGROUND THEATERS TO AVOID AIR RAIDERS

Paris, April 18.—Air raid conditions have suggested the founding of underground theaters in Paris, and two such amusement places soon will be opened. One of them called the "Abri" (Shelter) is located under a six-story building on the Boulevards, which has been officially classed as a safe retreat from bombardment. The other underground playhouse will open on the premises of the former cabaret called "Caveau de la Revolution" near the Palais Royal. The Palais Royal Theater will transfer its performances to this new location.

Four section, single township and county maps to give you a general view of the state.

LOSE WYTSCHAEDE AND METE- EN BUT HOLD TO POSITIONS FURTHER BACK.

(By the Associated Press)
The great battle in Flanders goes on undiminished in intensity. Having retired east of Ypres, the British are now putting up a most desperate resistance to the Germans menacing Hazebrouck and Ypres. The French have come to Haig's assistance and are fighting with the British east of Hazebrouck, an important supply base. During the past twenty-four hours the heaviest fighting has occurred along the Lys river on a front of fifteen miles from west of Merville to Wytschaete. The British took the offensive late yesterday and regained Wytschaete and Meteren, but the Germans in strong counter attacks forced them out again. The Germans gained no ground Wednesday east of Merville to Wytschaete and were compelled to use large forces in recapturing Wytschaete. On the remainder of the British front and in Picardy there has been no infantry activity.

Germans Repulsed at Corbeny. Paris, April 18.—After preliminary bombardment, strong German detachments attempted to advance last night near Corbeny, on the Aisne front. Today's official statement says the attack was broken up by French fire.

Americans in No Man's Land. With American Army in France, April 18.—American troops operating in the Lorraine sector have taken over control of No Man's Land. Patrolling parties are making almost nightly visits to German wire entanglements without encountering any resistance. An American lieutenant and party of twelve recently made five-hour exploration of German positions as far as the German third line without being seen by the enemy.

Hungarian Cabinet Resigns. Amsterdam, April 18.—The Hungarian cabinet has resigned according to a dispatch from Budapest. This decision reached at a session yesterday at which Premier Wekerle presided. After a short conference all members signed the document tendering their resignations. Their action is thought due to dissension over the suffrage reform bill.

Three Attacks Repulsed at Baillou. London, April 18.—Southeast of Kammel Hill on the northern battle front the Germans pressed back the British line slightly, but a counter attack restored the situation, the war office announces. During the night there was no change in the British front. In Baillou sector the Germans made three attacks before noon yesterday and in each case suffered complete repulse. The enemy opened a heavy bombardment of British positions on the southwestern portion of the Lye battle front between Locon and Robec during the night. The bombardment was still progressing at dawn today.

OVER ONE BILLION ISOFFICIALLY REPORTED

(By the Associated Press)
Washington, April 18.—New subscriptions of \$107,000,000 reported to the treasury today brought the total of the Liberty Loan pledges to \$1,059,548,000. A treasury department official calls this encouraging, but it is still short of what it should be if the three billion minimum is to be reached. Oklahoma's subscriptions to date total \$12,595,000.

WILLARD AND FULTON TO STAGE CONTEST

(By the Associated Press)
St. Paul, Minn., April 18.—It was announced here today that arrangements for the Willard-Fulton fight for heavyweight championship of the world probably would be completed late today. \$10,000.00 Bonus Practically Raised. Minneapolis, April 18.—Colonel J. C. Muller, promoter of the Willard-Fulton match, declared today that the fight would be held in the twin cities on July 4th if the business men raised a bonus of \$10,000.00. Representatives of the hotel men of the two cities stated that virtually the entire amount is already pledged.

Induce Birds to Bathe. To induce a canary to take a bath sprinkle a few seeds upon the water. This added attraction will make the bath become a habit.

Let a Want Ad get it for you.

SEATTLE SHIPYARD SETS NEW RECORD

CONSTRUCTS 8,800-TON FREIGHT
SHIP IN 109 DAYS, 91 DAYS
AHEAD OF CONTRACT.

Washington, April 18.—A new record for merchant shipbuilding was announced today in the contest between yards for pre-eminence in turning out such vessels. The Skinner & Eddy Shipbuilding company of Seattle has delivered to the shipping board the 8,800-ton freighter Ossineke in 109 days from the time the keel was laid, eighty-one days ahead of the date set in the contract.

In pre-war times twelve to eighteen months were required for the delivery of such a craft. The best previous record for completion of such a large vessel was 113 days. Eastern shipyards are trying hard to take the honor of fast work away from the Pacific coast, but so far have failed to equal the western speed.

The Submarine Boat Corporation's Newark Bay shipyard today laid its twenty-eighth keel and filled every stock in the yard. Two steel vessels were accepted during the week ending April 13, both of them requisitioned. They were the transport Siboney, 4,500 tons, and the freighter Westover, 8,800 tons.

TRACK MEET HERE TOMORROW

ALREADY MANY COMING TO CITY
TO HEAR MIDDLETON AT
NORMAL TONIGHT

The great field and track meet will begin tomorrow. On all the incoming trains today young men and women have been flocking into Ada to attend the meet. These are coming a day earlier in order that they may hear the great American singer, Arthur Middleton tonight. Dozens more will come in tomorrow and by tomorrow afternoon the town will be overflowing with the young people.

Great preparations have been made for the meet. The faculty and students of the Normal have been getting ready for it for several days, and the pupils and teachers are assured a good time as long as they stay.

The meet will be divided into two classes, the high school and the grammar school. All those pupils who weigh less than 115 pounds and are under fifteen years of age will be permitted to enter the grammar school section. Those who weigh more than 115 pounds and are more than fifteen years of age will be in the high school section. The high school events will consist of 100 yard dash, 220 yard dash, 440 yard dash, 880 yard run, mile run, 12 yard hurdle, 220 yard hurdles, 12 pound shot put, discus throw, javelin, pole vault, running high jump, running broad jump. Some of the best records ever made in Oklahoma have been made at the East Central track meet. But the meet will not consist of brilliant field and track events alone.

Friday evening the music and literary events will be held in the Normal school auditorium. These will consist of choruses, piano music, glee club music, reading and probably one or two other forms of entertaining. For a time it was feared that, on account of the war, many of the pupils in the high schools would not come to the meet. It has now dawned upon the school men, however, that at this time above all others is the time to keep the physical bodies of the pupils in prime condition. Therefore they are insisting upon the boys and girls going forward with the usual school activities, and they are insisting especially that the boys come to the track and field meet.

Needful Things. 'Tis a good old world to buy in, so you need a pile of wealth; to stay in, so you need the best of health; to play in, so you need to be with folks; to laugh in, so you need to tell some jokes; to pray in, so you need to be alone; to talk in, so you need a telephone; to dine in, so you need your larder full; to rise in, so you need some push and pull.

The Germans no doubt realize by this time that the money they spent early in the war trying to inflame American public opinion against the allies was wasted. They sought this means of keeping America out of the war but their methods were so clumsy that they were soon exposed and thoroughly discredited. A love of justice and fair play is an inherent principle of American character and the ravaging of Belgium did more to stir public opinion against the Germans than all their propaganda could overcome. They were soon recognized as the barbarians they really were and all the money spent trying to influence public opinion went for naught.

The old line Socialists have fallen upon evil days. In Roger Mills county, which they formerly controlled, the highest vote in the recent primary was 181 and this is probably the best in the state. Just as we have frequently remarked in times past their leaders were fattening off the members of the party by fanning opposition to the government and preaching anarchy. Now that most of these leaders have been squelched and many of them thrown behind the bars the loyal element of the rank and file have fallen into line and left the pro-German bunch where they belonged. When it developed into a choice between kaiserism and Americanism the two elements had to separate.

TREATING SOLDIERS FOR SHELL SHOCK

A Chateau in Lorraine, Aug. 17.—(Correspondence of The Associated Press)—American soldiers suffering from shell shock now are hurried in the shortest possible time to a base hospital established here for the special treatment of such cases. The element of time is regarded by the specialists attached to this hospital as a prime importance. Efforts are made to deliver such cases to the hospitals within forty-eight hours after the first symptoms develop. A special ambulance service has been organized for that purpose. Once here, the shocked soldier remains here until the treatment of his case is finished.

If the nervous trouble of a patient results from concussion or from the strain of service, it is curable here. If it is not curable, it is because the case was not brought here soon enough or because it had a chronic foundation before the patient went into the army. Nervous symptoms resembling what has been called shell shock have developed under the simple strain of service in soldiers who have never heard a shell explode.

Base Hospital 117 treats both

DRUGGIST
107 East Main
Successor to Ada Drug Co.

these aspects of war neurosis, and only according to the highest standards of neurological science. Hypnosis is seldom used. No dangerous experiments are allowed and isolation is not followed excepting as simple ward routine. The patients are kept together and the nurses are kept with them, giving their company as well as their experienced care and both are a part of the cure.

The patients, themselves, when they have recovered sufficiently become ex-officio members of the staff; they co-operate with the doctors and nurses in helping the other boys out of their muddled condition of mind and their unsteady state of nerves.

The most obvious part of the treatment is the use of tools or the instruments of sport. A shaking hand that is unable to retain anything in it gradually steadies with patient gripping exercise, and this method has the advantage of occupying the mind while it re-educates the hand.

One boy whose head and hands were shaking constantly was seen weaving things out of dyed ends of string on a loom made for him out of odds and ends of lumber by other patients. Through his attention to the work and by the growing firmness of grip he is obtaining through practice control of his nerves and will be cured in a few days. A machine shop with turning lathes, a tailoring shop and the ambulance garage furnish occupations for many.

All cases of palsy and paralysis resulting from concussion are cured when taken in time. A boy who was brought in with a paralyzed leg is now walking around the grounds, after a week of treatment. Defects of speech are the most difficult cases; the treatment is longer and requires greater pains, but they yield to it finally.

AMERICAN SOCIALISTS CONFER WITH BRITISH

(By the Associated Press)
London, Aug. 17.—(Correspondence of The Associated Press)—Emphatic assertions that all American socialists and labor unionists unreservedly support President Wilson's war aims have been given to British labor men by members of the Social Democratic League of America.

"I come to emphasize that all American socialists and labor unionists are unreservedly back of President Wilson and his war aims," declared A. M. Simons of Wisconsin, one of the members of the commission, in an address he delivered at a dinner given to the mission, at the House of Commons. "America stands out of the war two years," continued Mr. Simons, "taking recourse to every means at hand to avoid participation in what seems the world catastrophe. Since our entrance into the war President Wilson has given the Germans every opportunity to avoid further blood shed. We have laid our cards on the table and waited patiently but the only answer is that of the cannon of the enemy's hosts in battle. We hate war. We did not want militarism in the United States. But we are fighting now and intend to continue to fight with all our means to make war a bad investment by any nation in future."

John Spargo, another member of the mission, declared that unless the United States was to bear in future the greatest military burden known to the nations, Prussianism must be crushed at the earliest possible moment. "Such creed is in keeping with our pacifism," said. "We believe an inconclusive peace would be an unparalleled disaster that a thousand years of toil and suffering could not right."

John Hodge, British Minister of Pensions, said there could be no doubt about the soundness of British labor in the war, notwithstanding certain unfortunate impressions. "We admit," he said, "that as in the case of almost every country we have a certain proportion of wrong-headed people among us, and they impose on us the duty of great vigilance. For instance at the moment we are not unaware of the threat that, among some 400 labor candidates for parliament in the coming general election, there will possibly be something like 90 per cent of them of the pacifist persuasion."

C. W. Bowerman, Parliamentary secretary of the British Trade Union, representing 3,000,000 workers, said that the heart of labor in the British Isles beat in unison with that of their brothers in America on the subject of the war. The eyes of socialists and labor union men in Great Britain, he added, had been opened by the progress of the American Social Democratic movement.

William Brace, Secretary of the Home Office, declared that the miners of South Wales were determined to make any sacrifice to win the war.

COLLEGE TRAINING PLAN IN FULL SWING

With President R. C. McLaurin of the Massachusetts Institute of Technology serving as educational head of the Student's Army Training Corps, and a staff of well known civilians to help in the task, the War Department's plan to have every important college in the country a military post for the training of men for the Army and Navy is making rapid headway. On July 18, three large training camps at Plattsburg, N. Y., San Francisco, Cal., Fort Sheridan, Ill., with attendance of 7,000 members of college faculties and selected students began a sixty-day course designed to prepare men to assist in the work of military instruction in the colleges this year.

Details of the plan have just been announced by the War Department. "The plan is an attempt to mobilize and develop the brain power of the young men of the country for these services which demand special training," says the War Department. "It's object is to prevent the premature enlistment for active service of these men who could by extending the period of their college training, multiply manifold their value to the country."

In its announcement the Department points out the needs for highly trained men as officers, engineers, doctors, chemists, and administrators of every kind.

"The importance of this need cannot be too strongly emphasized," says the War Department's circular. "This is a war in which soldiers are not only marksmen, but also engineers, chemists, physicists geologists, doctors, and specialists in many other lines. Scientific training is indispensable. Engineering skill is needed by the officers who direct every important military operation and who control our lines of transport and communication. In the same way chemical and physical knowledge are in constant demand at the front as well as behind the lines, while the task of saving the lives and restoring the health of hundreds of thousands of wounded calls for the services of regiments of military physicians. The scientific training which prepares a man to fulfill one of these highly specialized duties and the more liberal training which helps to develop the qualities of leadership needed by the officer or administrator are essential elements of military efficiency."

The boy who enlists in the Student's Army Training Corps will be a member of the army of the United States. He will be provided by the War Department with uniform and equipment, but will be on furlough status and will not receive pay. He will undergo regular military training as a part of his course during the college year, will attend a six weeks camp for rigid and intensive military instructions with privates pay, and will be subject to the call of the president for active service at any time, should the exigencies of the military situation demand it. The policy of the government, however, will be to keep members of this corps in college until their draft age is reached, and the War Department will have the power to order such men to continue in college even after their draft age is reached whenever their work is such that it needs of the service, e. g., for doctors, engineers, chemists, and the like, are such as to make that course advisable.

The Students' Army Training Corps is administered by the Committee on Educational and Special Training of the War Department, which is a section of the Training and Instruction Branch of the War Plans Division of the General Staff. Competent officers and non-commissioned officers will be assigned to the various institutions to carry on the work of military instruction. In view of the educational significance of the new plan, Dr. P. P. Claxton, Commissioner of Education, has sent a copy of the War Department's statement to school and college executives throughout the country.

**RUSSIA POWERLESS
LENINE ADMITS**

Harbin, Manchuria, Aug. 17.—(Correspondence of The Associated Press)—Russia is powerless to take any part in the impending conflict of Allied and German affairs in the Murman district, according to the version of a recent speech by Premier Lenine which has been received here.

"The English and French bourgeoisie have spent enormous sums on Murman and a fortune with mercenary purpose," asserted Lenine. "They have landed troops to protect the Murman coast. We had no proper forces to prevent this. The German government demands that they be disarmed, telling us that if we cannot defend ourselves they will carry on the war in our territory."

Referring to the Ukraine, Lenine claimed that the Germans were met everywhere with desperate resistance.

"To the Caucasus," Lenine points out, "the Soviet sent inquiries regarding the new frontiers which the Caucasian government laid claim to, but received no answer."

"We are not a great power. Of Russia nothing is left but Great Russia. For the interests of universal socialism are higher than national interests. For us, little down-trodden Great Britain stands far higher than that stupendous great power which sold itself to the imperialists with secret treaties."

"We cannot now conceal the fact that we are in favor of defense. We wish to defend our socialist fatherland. For this we must have a proletarian dictatorship."

"TO HELL WITH THE KAISER"

LIBERTY THEATER
MONDAY AND TUESDAY
AUGUST 26 AND 27

ITEMS OF INTEREST FROM SPORTING WORLD

(By the Associated Press)
Great Lakes, Ill., Aug. 17.—Coach Franz Marceau of the Great Lakes Naval Training station track team is extremely optimistic in regard to the Navy's chances of lifting the National A. A. U. track and field championship from the present holder, the Chicago Athletic Association.

The 1918 games will be staged in the new Athletic field at Great Lakes—a stadium that boasts a quarter-mile straight away path and a quarter mile oval track. The senior events are booked for Sept. 21, the juniors for the day previous and the all rounds for Sept. 23.

Marceau has not lined up his material from the 46,000 sailors here, but it is no secret that several national champions are included in its personnel. For instance there is Andy Ward, holder of both the senior 100 and 220 yards titles, and Ed Knorrek, pole vault king, connected with the team.

Loren Murchinson of St. Louis, junior 300-yard champion, is serving in detention. Dean Leffler, western A. A. U. hurdle star, is a seaman at Camp Dewey. Earl Clifflin, the Notre Dame star, is ready for the jumps and weight.

Coach Marceau himself will enter the middle distance races. Marceau was a point gainer on Coach Martin Delaney's team that cleaned up in St. Louis a year ago.

The coach will issue an official call for all track men in a few days. He expects several hundred candidates to turn out.

Louisville, Ky., Aug. 17.—M. J. Winn, general manager of the Louisville Jockey Club, announced that geldings will hereafter be barred from starting in the Kentucky Derby. The Latonia management had already announced the disbarment of the unsexed thoroughbreds.

This ruling will bar Billy Kelly, considered the champion two-year-old colt of the year. Billy Kelly was the western champion having won four out of five starts on the Kentucky Circuit. At Saratoga Springs he took the Flash and U. S. Hotel Stakes in his only two starts at the Spa. St. Bernard and Col. Livingston, two other fast colts which performed on the Kentucky circuit, would also come under the ban.

Col. Winn said his reason for the action is that the government needs thoroughbred stallions and that if the jockey clubs and racing associations of Kentucky and the East had not taken the initiative in the work of discouraging the gelding of thoroughbreds the government would have intervened.

Announcement that the Kentucky Derby hereafter is to be closed to geldings follows the declaration of the Westchester Racing Association that four of the most important specials annually renewed at Belmont Park, the Withers and Belmont stakes, the Lawrence Realization and the Suburban, will from this time on be for entire colts and fillies only.

The Kentucky Derby this spring was won by Exterminator, a gelding. Other geldings, among them Old Rosebud, have finished first in the Kentucky classic.

Cleveland, O., Aug. 17.—War can have few terrors for American league batters now serving with the colors, according to a letter received here from Eddie Kieffer, former Cleveland pitcher, now a sergeant with the American Expeditionary force. Kieffer said there is little difference in the "zip" of a German sniper's bullet and the "whizz" of Walter Johnson's fast one, except that Johnson's offering may have a "hop" on it. The letter says:

"I have been over the top and I came back without being hit. I was a member of a scouting squad. You know how it feels when you are up to bat and Walter Johnson buzzes one of his fast ones past your ears. That's how it feels when the Huns are trying to pick you off. It sure is a great sensation—that of being fired at by someone you know means it."

That "all in" feeling so common in hot weather is not due to heat alone, but to an unhealthy condition in the liver, stomach and bowels. To prevent a spell of sickness take Prickly Ash Bitters. It is an excellent system cleanser and regulator. Price \$1.25 per bottle.—Gwin & Mays Drug Co., special agents.

DADDY'S EVENING TALK BY MARY GRAHAM BONNER

A PIG PARTY.

It was the day for the party which Grandfather Porky Pig was to give in order that all the pigs might show their joy that they didn't have to go to school to learn to be clean.

"We're going to show today," said Grandfather Porky, as he stood upon a stump in the pippen, "that we're regular pigs. We love the mud, the great and glorious mud, the nice, oozy mud, the soft, dark, squashy mud."

"Hear! Hear! Cheers!" shouted the pigs in their squealing voices.

"Today, in addition to playing in the mud," said Grandfather Porky, "we're going to see which pig can make the greatest pig of himself when the farmer comes around with the dinner. The one who does the best receives a prize."

"Goodie!" they all grunted.

"I am glad," continued Grandfather Porky, "that my family and grandchildren and relations love the mud. I love it so myself! I am glad they take after me. Ah, to dig in delicious mud, to feel its softness, to get good and dirty—what else is so fine? And that lovely word of squishiness which sounds so like mud and pigs is second only to the word—food!"

"They say," began Miss Ham, "that they've named all notable and famous people after us."

"You don't say?" inquired Mrs. Pinky Pig. "Tell us about it, my dear."

"Why, I've been told," continued Miss Ham, "that every child or person who is greedy and selfish is called a pig. Often the farmer's son has said to the farmer's daughter, 'There, don't take the best apple for yourself. You are a little pig!'"

"Grand, simply gorgeous," said Grandfather Porky.

"But they don't mean it as a compliment, though," said Sammy Sausage. "We all know that. We love to say they have named creatures after us, but we all know it's really not an honor at all."

"Never mind how they mean it, young Sammy," said Grandfather Porky. "It's fine to have creatures with two legs named after us."

"They have named a weed—pigweed—after us, too, eh?" asked Pinky Pig.

"True," said Grandfather Porky, "but while it's mighty nice to eat, it's a greater honor to have those proud two-legged creatures often named after us."

"I have something finer to tell you," said Brother Bacon.

"Tell it to us," all the pigs squealed. "Yes," said Grandfather Porky, "tell us what is so fine."

"In the big world they are trying to save and cherish us—so we'll never grow scarce. They love us so! They are forbidding folks to eat us at times. Isn't that glorious? They have at last come to appreciate us," granted Brother Bacon.

"Fine," they all squealed.

"Pork and bacon are expensive now—they're fine and expensive. They know at last what pigs are like—we aren't cheap food, but a luxury. Heigh ho!"

"No longer cheap food, but a luxury," squealed all the pigs.

"Wonderful," said Porky Pig, "and what a good idea to appreciate us by forbidding folks to eat us on certain days if they think we're growing scarce. But the best part of it all is that they aren't keeping us from eating as much. Ah, no! they let us eat for they know that we so fully appreciate the joys of eating."

Just at that moment the farmer came along with the dinner for the pigs.

"The party, my party!" shrieked Porky Pig.

"It's not your party any more than it's my party," said Brother Bacon.

"It's my party, too," said Pinky Pig.

"Mine, mine!" said Miss Ham.

"The farmer brought the food for me," said Sammy Sausage.

They all certainly behaved as if they wanted to live up to their family name, but all had been such really real pigs that poor Porky couldn't give his prize to anyone—and besides he really hadn't any prize to give!

Some One.

The Reporter—And did he leave a family?

The Nurse—Not a soul belonging to him.

The Reporter—And no money?

The Nurse—Not a dollar.

The Reporter—Poor fellow, no one to mourn his loss?

The Nurse—Oh, yes, he has a lot of creditors.

Where the Sunshine Lingers.

The mountain tops are radiant with golden sunshine long after the valleys are dark. The higher you climb, the longer the daylight remains with you. To live in the valley means living in the shadow. Move out of its dark nest, its misman. Climb up where the air is fresh and the sunshine lingers—Girls' Companion.

More Philosophy.

"How dreadfully that cigar smells!" exclaimed Dubbe to a companion.

"Why, it's an awful smelling thing!"

"No, no; it's not the cigar that smells," was the reply.

"What is it then?" inquired Dubbe.

"Why, it's your nose that smells, of course. That's what noses are made for."

NOTICE TO ALL READERS OF THE EVENING NEWS

Every one who has a news item of importance is invited to telephone it to The News from day to day. Owing to the shortage of labor and the high price of running a newspaper, it is impossible now to maintain a reporting force large enough to see every one every day. You can go to the telephone and give us a news item in a few minutes and in this way let your friends know where you are. They will appreciate the courtesy. Oftentimes you will have friends visiting you. The people of Ada want to know about this, and we sincerely ask you to let the News tell them about this friend. It is a courtesy you owe your guest to have his or her name appear in the news items of your local paper. Some one will be in the office all the time to look after these items.

KEPT HER AWAKE
The Terrible Pains in Back and Sides. Cardui Gave Relief.
Marksville, La.—Mrs. Alice Johnson, of this place, writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful.
I could not do anything, not even sleep at night. It kept me awake most of the night... I took different medicines, but nothing did me any good or relieve me until I took Cardui...
I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again... I decided I would try Cardui... By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone.
I shall always praise Cardui. I continued taking it until I was strong and well." If you suffer from pains due to female complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their present good health. Give it a trial. NC-123

LAND AND HOMES FOR RETURNED SOLDIERS
(By the Associated Press)
Washington, August 17.—When the soldier of 1865 laid down his arms to take up a civil occupation, he turned westward to a matchless public domain which he helped to develop into the world's richest farms and cities. The government was able to point the way to a method by which the returned soldier was able to turn his talents for a livelihood, and the government now is laying the ground work to have similar land available when the great war ends and the millions of American soldiers return to civil life.
While the vast domain that awaited the civil war veteran cannot be duplicated for those who return from the European battle fields, there are millions of acres which can be made available with proper legislation and subsequent development, and which,

according to the present plans, will be offered to the returning soldier with ample time to pay for the cost of development if he desires to accept it.
Congress will be asked for legislation to make this land available, according to the present plans of Secretary Lane and Congressional leaders.
Secretary Lane has announced that it will be the policy of the department of the interior to ask for legislation by which aird lands of the west, cut over lands of the northwest, and swamp lands in the middle west and the south, can be reclaimed and the soldier given a preferred status in its allotment. Bills are now before Congress on that subject, and the plan now to weld into an administration bill a measure embracing Secretary Lane's ideas, the legislation to be patterned after a bill now before the House public lands committee by Representative Smith of Idaho.
The amount of swamp and cut-over lands is extensive, reports from the Department of the Interior indicate but just how extensive is not known. It is estimated that approx-

mately 60,000,000 acres of swamp and overflow land can be made available for farming. Some of it has passed into private ownership. It lies chiefly in Florida, in the states along the Atlantic and Gulf coasts, in the Mississippi delta and in Missouri, Indiana, Michigan, Minnesota, Wisconsin and California.
It is estimated that of the cut-over and logged-off land there is approximately 200,000,000 acres suitable for agricultural development. A larger percentage of this land is now in private ownership, and it is shown that failure to develop it is due largely to inadequate methods of approach, says Secretary Lane. Unless a new policy of development is worked out in co-operation between the United States, the states and the individual owners, a greater part of it will remain unsettled and uncultivated. The land lies chiefly in Washington, and Oregon, Virginia, North Carolina and South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana and Texas.
Other than the planning, the development should be by the returned soldier, according to Secretary Lane's views.
"The dam or the irrigation project should be built by him," Mr. Lane says. "The canals, the ditches, the breaking of the land and the building of the houses, should under proper direction, be his occupation. He should be allowed to make his own home, cared for while he is doing it, and given an interest in the land for which he can pay through a long period of years, perhaps thirty or forty years.
"So that the soldier on his return would have an opportunity to make a home for himself, to build a home with money which he would advance and which he would repay, and for the payment we would have an abundant security."

Two large audiences greeted the pastor last Sunday. Were you there? We will be looking for you tomorrow. Preaching morning and evening by the pastor. Morning subject: "Go Through, Go Through the Gates." Evening theme: "The Fatal Mistakes of a Successful Man." Sunday school at the usual hour. Come to the Baptist church on 15th and Broadway.—Bonnie Grimes, Pastor.

DETAILS OF MIRBACH'S ASSASSINATION
Amsterdam, Aug. 17.—(Correspondence of The Associated Press)
—Russians who assassinated General Von Mirbach, the German Ambassador to Russia, concealed their weapons under the table over which they were conversing with the German diplomat, according to details of the killing published by the Berlin Lokal Anzeiger as coming from an eye-witness of the murder.
"Count Mirbach, Privy Councillor Riebler, and Lieutenant Mueller, were seated with the two Russians at a marble table in the middle of the room," says the witness. "On one side were the Germans and on the other the Russians. All were seated in low leather chairs, which was an advantage for the Russians as they were thus able to get their weapons ready under the marble table without being observed, while their victims, leaning back in their chairs, offered an easy target.
"During the conversation the Russians began to turn over the pages of their documents as though in search of some missing papers, and the attention of the Germans was thus distracted by this ploy. While Count Mirbach and his colleagues imagined that the Russians were examining the documents, they had drawn out their weapons under the cover of the table.
"They then sprang up with revolvers, and began firing; one Russian aiming at Count Mirbach, the other at the two other Germans. Count Mirbach was hit in the back of the head. On hearing the shots, people hurried in from the neighboring rooms, and the Russians thereupon took to flight, but, before springing out of the window, each of them hurled a hand grenade. Only one grenade exploded, the splinters of which hit Count Mirbach killing him immediately."

Cashing War Savings Stamps.
"Don't cash your War Savings Stamps" is the admonition of the Oklahoma War Savings Committee, "keep them until maturity and draw full interest."
Reports of merchants accepting War Savings Stamps in payment for merchandise has come to the attention of the State W. S. Committee. Others have indulged in the practice of discounting them for cash. This is not in keeping with the intention of the thrift movement, the committee asserts and asks that the practice be discontinued.
War Savings Stamps are not transferable but they can be cashed at any postoffice. The government, however, does not want you to cash them unless it is absolutely necessary that you do so.
"Remember your pledge," is the slogan of the National War Savings Committee. Millions of persons throughout the United States signed a pledge on June 28th and the government looks forward to everybody buying Stamps in accordance with their pledge.
Catarhal Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.
We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

ARMY NUMBERS THREE MILLION

GEN. MARCH GIVES DETAILS OF AMERICAN NUMERICAL STRENGTH.

(By the Associated Press)
Washington, Aug. 17.—General March, chief of Staff, in conference today with the senate military committee told the senators that the American army now numbers slightly over 3,000,000 men under arms, with 1,450,000 in France, Italy and Siberia and approximately 1,550,000 in cantonments at home.

TWO VICTIMS OF SUBMARINES REPORTED

(By the Associated Press)
Paris, Aug. 17.—The old French cruiser Dupetit Thouars has been sunk by a German submarine according to an official admiralty statement today. Thirteen of the crew are missing. An American destroyer rescued the remainder.

Beaufort, N. C., Aug. 17.—The British tank steamship Mirlo was torpedoed by a German submarine off Cape Hatteras last night, and according to reports received today nine of the crew were drowned. All the rest of the crew were saved by coast guard vessels.

I. W. W. CASE AT CHICAGO TO JURY

(By the Associated Press)
Chicago, August 17.—The I. W. W. case which has lasted over three months was given to the jury today. Attorney Frank Nebeker for the government concluded his argument in an hour and attorney Vanderveer for the defense surprised the spectators by making no argument at all.

Cemetery Notice.
There will be an important meeting of the City Commissioners and the public in general on next Tuesday afternoon at 2 o'clock, the object of which is to take up the matter of acquiring more ground for Rosedale cemetery.

Every citizen of the city, and especially the ladies, are urged to attend. The meeting will be at the city hall.

W. E. CONGER,
Mayor and Commissioner of Public Safety and Justice.

W. B. JONES,
Commissioner of Accounting and Finance.

P. H. DEAL,
Commissioner of Public Works and Property.

Congressman Tom D. McKeown was in the city for a short time Monday afternoon, and while here made a brief talk to the citizens of Wewoka. While his coming was informal and very few people know that he would be here, it didn't take long for the people to find out he was here, and in response to a popular demand made an interesting talk. His remarks were confined to war endeavor and the question of successfully handling the cotton crop. Congressman McKeown is one of the most popular representatives with the people this district ever had, and he is always greeted with a warm reception when he has an opportunity to be present.—Wewoka Democrat.

CHASING SUBMARINES WITH DIRIGIBLES

An American Balloon Base in England, Aug. 17.—(Correspondence of The Associated Press)—The "Blimp" is the nickname which the American pilots have given to the little dirigible airships which are technically termed "S. S." or Submarine Scouts.

The gas-bag of the Blimp is about 150 feet long and 30 feet in diameter. The lower structure is virtually that of a scouting airplane of medium power, so that the whole effect is that of a sort of a cross between airplane and balloon. The crew is usually one pilot and an observer, and the speed is about 40 miles an hour.

The cargo is a load of bombs which work like a destroyer's depth charge, exploding by waterpressure at a depth of 20 to 30 feet. The carriage contains steering gear, bomb levers, wireless apparatus, camera and observation instruments.

Hundreds of Blimps are constantly on duty around the coasts of France and England. American pilots and observers are just beginning to take up this work. It is the greatest U-boat destroyer in existence, if the men who work the Blimps are to be believed. One enthusiastic American pilot who had been dropping bombs up and down the Irish sea for a month, remarked to The Associated Press correspondent: "The Blimp is not only one of the ways of destroying U-Boats, it is the way."

The advantage that the Blimp has over the seaplane is that it can stand still in the air. If a U-boat dives down and lies out of sight on the bottom, the Blimp sits over it until it decides to move or come to the surface. If the submarine does not move, the Blimp is just as well content, for in the meantime the wireless has been at work, and trawlers are coming up in the course of an hour or two with the necessary equipment to smoke Mister Submarine out of his hole.

If the submarine rises before naval help arrives, the Blimp tackles it alone with bombs. If the submarine tries to move away along the bottom of the sea, the Blimp follows its shadow until it comes, sooner or later to a shallow spot where it can be effectively dealt with.

Subject to the Blimp's fuel supply and its "duration power" in the air, there is little chance of escape for a U-boat once it has been sighted by one of these handy little dirigibles. The sighting or spotting of the U-boats is the great difficulty, for the seas around England are large places and the range of the individual Blimp is comparatively small.

A larger type of Blimp is now being used, known technically as the C. P. or Coast Patrol. It carries a larger crew and a greater supply of fuel and is used for detecting minefields as well as submarines.

Wisconsin Men Sent to Leavenworth.
(By the Associated Press)
Madison, Wis., Aug. 17.—Louis B. Nagler, former assistant secretary of state, was sentenced to thirty months in the penitentiary at Fort Leavenworth, in federal court here today.

Nagler had been convicted for violating the espionage act.

County Judge J. M. Becker of Monroe, was sentenced to three years at Fort Leavenworth for violating the same law.

ARMY TRAINING CORPS AT NORMAL

President J. M. Gordon is making definite plans for the establishment of a Students' Army Training Corps at East Central State Normal this fall. While he is unable to announce definitely at this time that the unit will be officially established he has reasons to believe that it will. The matter is before the War Department and a report is expected within a few days. One faculty member of the normal and three students are now in training at the camp at Fort Sheridan, Ill., to assist with the military training next year.

A student enlisted in the Students' Army Training Corps is in the military service of the United States; however, he is technically on inactive duty and therefore must register after he has reached draft age and upon notice by the president. Upon stating on his questionnaire that he is already in the service of the United States he will be placed automatically by his local board in class V-D as provided by the Selective Service regulation. The draft board will not call him for induction so long as he remains a member of the Students' Army Training Corps.

In order that the college student may not even appear to enjoy special privileges it is agreed that when the day arrives on which according to his order number he would have been drafted had he not already volunteered, the fact is reported to the president of the college and to the commanding officer at the college, who in turn reports it to the adjutant general. The president of the college and the commanding officer will then report to the committee on education and special training of the War Department for what form of military service the individual is in their judgment best qualified. They will recommend that the student should continue his studies to prepare for work in medicine, engineering, chemistry, psychology, economy etc., or that he should go at once to an officers' training camp to prepare for officers commission in the infantry, artillery, eac., or that he should be assigned to work in the ordnance department, quartermaster's department or other staff corps, or sent immediately to a division at one of the camps.

Opportunity will be given for the enlisted student if he so elects, to transfer from army to navy, and vice versa, and to be assigned to active service in one of the various corps of the army upon recommendation of the college president and the proper military authority.

Uniforms including hats, shoes and overcoats will be furnished the members of the Students' Army Training Corps by the government.

The normal is planning to form special courses for young who will be called to the colors. Courses in elementary French, mathematics, and special courses in history and geography will appeal to people who are soon to see service over seas.

President Gordon has just returned from a conference at Oklahoma City made up of the college and normal school presidents of Oklahoma. He will attend another meeting at Fort Sheridan, Ill., the latter part of the month called by the War Department, to make final plans with reference to military training in the normal school this fall.

He is exceedingly anxious that East Central State Normal shall do her full part in helping to meet the call of the government for the young men of East Central district.

Later: President Gordon has just had a wire from Washington as follows:

"Students will be taken care of in S. A. T. C. Official particulars a little later. Signed R. L. Kelly."

This is taken to mean that an official union will be established by the war department at East Central normal. In that event a regular army officer will be detailed to have charge of the military training in the normal. Students who enlisted in the Students Army Training Corps will be furnished uniforms, shoes, guns, etc. Furthermore, they will be differently enlisted in the United States army, and will be entitled to a service star just as if they were in the trenches. They will have joined the colors of our country but be permitted to continue in school.

WOUNDED BOY'S FIRST THOUGHT IS "MOTHER."
Paris, August 17.—"Tell Mother." These are always the first words of the wounded U. S. Marines, those devil dog fighters who routed the pick of the German forces in the recent battle on the Marne, when they are brought into hospitals here. One marine, just a boy, said: "I've been a sort of wanderer for the past six years. I guess the folks back home thought I was good for nothing. But now I wish you would write mother for me and just tell her I made good."
